Researching Internet Governance Laura Denardis 2020-09-08 Scholars from a range of disciplines discuss research methods, theories, and conceptual approaches in the study of internet governance. The design and governance of the internet has become one of the most pressing geopolitical issues of our era. The stability of the economy, democracy, and the public sphere are wholly dependent on the stability and security of the internet. Revelations about election hacking, facial recognition technology, and government surveillance have gotten the public's attention and made clear the need for scholarly research that examines internet governance both empirically and conceptually. In this volume, scholars from a range of disciplines consider research methods, theories, and conceptual approaches in the study of internet governance.

Making Passwords Secure Dovell Bonnett 2016-03-24 Passwords are not the problem. The management of passwords is the real security nightmare. User authentication is the most ignored risk to enterprise cybersecurity. When end users are allowed to generate, know, remember, type and manage their own passwords, IT has inadvertently surrendered the job title Network Security Manager to employees - the weakest link in the cybersecurity chain. Dovell Bonnett reveals the truth about the elephant in the room that no one wants to mention: Expensive backend security is worthless when the virtual front door has a lousy lock! Dovell proves that making passwords secure is not only possible, passwords can actually become an effective, cost efficient and user friendly feature of robust cybersecurity. After examining how encryption keys are secured, this book introduces a new strategy called Password Authentication Infrastructure (PAI) that rivals digital certificates. Passwords are not going away. What needs to be fixed is how passwords are managed.

Macroeconomics Wendy Carlin 2015 Carlin and Soskice integrate the financial system with a model of the macro-economy. In doing this, they take account of the gaps in the mainstream model exposed by the financial crisis and the Eurozone crisis. This equips the reader with a realistic modelling framework to analyse the economy both in crisis times and in periods of stability.

Introduction to Sociology 2e Heather Griffiths 2017-12-31 Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

Derivatives Demystified Andrew M. Chisholm 2010-06-10 The book is a step-by-step guide to derivative products. By distilling the complex mathematics and theory that underlie the subject, Chisholm explains derivative products in straightforward terms, focusing on applications and intuitive explanations wherever possible. Case studies and examples of how the products are used to solve real-world problems, as well as an extensive glossary and material on the latest derivative products make this book a must have for anyone working with derivative products.

Law, Bubbles, and Financial Regulation Erik Gerding 2013-12-04 Financial regulation can fail when it is needed the most. The dynamics of asset price bubbles weaken financial regulation just as financial markets begin to overheat and the risk of crisis spikes. At the same time, the failure of financial regulations adds further fuel to a bubble. This book examines the interaction of bubbles and financial regulation. It explores the ways in which bubbles lead to the failure of financial regulation by outlining five dynamics, which it collectively labels the "Regulatory Instability Hypothesis." . The book concludes by outlining approaches to make financial regulation more resilient to these dynamics that undermine law.

Remembering What I Forgot K. Allen 2017-06-26 You may remember visiting a grandparent or elder friend who lived in a nursing home memory unit. When you were a child you may recall sights, sounds, and smells that caused you to feel uneasy. Step into any one of today's 16,000 long-term care facilities across the US, and suddenly those memories reemerge. Nurse Supervisor K. Allen tells of the emotional investments found while working with seniors inside the Van Gogh, a large upscale urban assisted living complex. Located at its core is found a locked memory care unit, the Rembrandt, where he and his heroic support team struggle to comfort those suffering from Alzheimer's and other types of Dementia. Emotionally rich and deeply moving, Remembering What I Forgot tells of a day in the life of a memory unit nurse and the unimaginable obstacles faced by today's health care workers. A first of its kind, the story provides its reader with a rare glimpse into "life on a memory unit" including the emotional torment experienced by visitors who witness their loved one slip into ever increasing apathy and confusion. In its truest sense a love story of the need to cope and how to find hope when someone we love suddenly cannot remember well and is handed a diagnosis of Dementia. Insightful, humorous and heartfelt, Remembering What I Forgot conveys a message of inspiration and helps us connect with those in the final chapter of their life. Let us not forget them.

Financial Risk Management and Derivative Instruments Michael Dempsey 2021-05-17 Financial Risk Management and Derivative Instruments offers an introduction to the riskiness of stock markets and the application of derivative instruments in managing exposure to such risk. Structured in two parts, the first part offers an introduction to stock market and bond market risk as encountered by investors seeking investment growth. The second part of the text introduces the financial derivative instruments that provide for either a reduced exposure (hedging) or an increased exposure (speculation) to market risk. The fundamental aspects of the futures and options derivative markets and the tools of the Black-Scholes model are examined. The text sets the topics in their global context, referencing financial shocks such as Brexit and the Covid-19 pandemic. An accessible writing style is supported by pedagogical features such as key insights boxes, progressive illustrative examples and end-of-chapter tutorials. The book is supplemented by PowerPoint slides designed to assist presentation of the text material as well as providing a coherent summary of the lectures. This textbook provides an ideal text for introductory courses to derivative instruments and financial risk management for either undergraduate, masters or MBA students.

Machine Learning for Algorithmic Trading - Second Edition Stefan Jansen 2020-07-31

Essential Grace David Damiano 2016-01-30 What is grace? The answer lies deeper than you might suppose. To understand grace in its fullness, we must explore the great mystery of our very existence. In search of that deep understanding, Essential Grace takes you on an eternal journey. It begins with the mind of God, all alone in eternity past. It consummates in the heights of heaven, where we see God surrounded by the glorious host of His redeemed people. In between, it explores the multi-faceted grace of God poured out on His creation. Powerful and vivid, Essential Grace will open your eyes to the liberating reality of God's grace.

Fundamentals of Futures and Options Markets John C. Hull 2007-05-29 This new edition presents a reader-friendly textbook with lots of numerical examples and accounts of real-life situations.

Stories for Young Readers, Book 2 Donald Kinney 2011-08-08 Stories for Young Readers, Book 2, by Kinney Brothers Publishing, is a series of ESL readings that includes questions, grammatical explanations, exercises, and puzzles for beginning students. Broken Ground Anna Paige 2015-10-04 Clay McGavran was stuck in hell. Otherwise known as Denson, Virginia - a small town in the shadows of the Blue Ridge Mountains - a town shrouded in the pain and tragedy of the past. As partner at one of Richmond's most successful construction and design firms, building someone else's dream home was his job. But when their dream brought him to the town of his nightmares, he was thrust into a past he'd worked diligently to forget. The only respite to his misery came from an unexpected - and inconvenient - source. His new assistant, Alison. To Clay, Alison was the woman whose perpetual smile and hauntingly familiar eyes were a balm to his scraped and bruised psyche. She was the antithesis of the type of woman he usually took to his bed but he found himself wanting her more than any woman before her. And, as his employee, she was the one woman he couldn't have. His company, friendships, and reputation were at stake. He couldn't cross that line again. He'd been reckless in the past and it had nearly cost him his company - and his life. But it's not so easy to walk away when, in the fires of his personal hell, he may have stumbled headlong into his salvation. ***Due to

coarse language and graphic sexual situations, this book is not intended for individuals under the age of 18.***
Student Solutions Manual for Options, Futures, and Other Derivatives, eBook [Global Edition] Hull 2021-02-05 This book contains solutions to the Practice Questions that appear at the ends of chapters in my book Options, Futures, and Other Derivatives, 9th edition, Global Edition. The questions have been designed to help readers study on their own and test their understanding of the material. They range from quick checks on whether a key point is understood to much more challenging applications of analytical techniques. Some prove or extend results presented in the book. To maximize the benefits from this book readers are urged to sketch out their own solutions to the questions before consulting mine.

Fundamentals of Futures and options markets John Hull 2013-09-12 This first Australasian edition of Hull's bestselling Fundamentals of Futures and Options Markets was adapted for the Australian market by a local team of respected academics. Important local content distinguishes the Australasian edition from the US edition, including the unique financial instruments commonly traded on the Australian securities and derivatives markets and their surrounding conventions. In addition, the inclusion of Australasian and international business examples makes this text the most relevant and useful resource available to Finance students today. Hull presents an accessible and student-friendly overview of the topic without the use of calculus and is ideal for those with a limited background in mathematics. Packed with numerical examples and accounts of real-life situations, this text effectively guides students through the material while helping them prepare for the working world. For undergraduate and post-graduate courses in derivatives, options and futures, financial engineering, financial mathematics, and risk management.

Brigham 2018-05-07 Using the innovative approach and powerful examples that have become the signature of this longtime market leader, Brigham/Houston's FUNDAMENTALS OF FINANCIAL MANAGEMENT, 15e continues to equip learners with a thorough understanding of the what and the why of corporate finance and financial management. Its unique balance of clear concepts, contemporary theory, and practical applications ensures readers understand the concepts and reasons behind corporate budgeting, financing, working capital decision-making, forecasting, valuation, and Time Value of Money. The authors also provide authoritative insight into the federal debt, the ongoing recovery of financial markets, the European debt crisis, and more. In addition hands-on exercises enable learners to put what they learn into real-world practice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Tainted Energy Lynn Vroman 2014-10-21 For seventeen-year-old Lena, living in the trailer park with the rest of town's throwaways isn't exactly paradise. Dealing with a drunken father who can't keep his fists to himself doesn't help matters either. The only good thing in her life, other than track, is the mysterious man who visits her dreams, promising to find her. When a chair burns her arms, Lena chalks it up to stress-induced crazy. Yet as bizarre incidents escalate, even being crazy can't explain it all away... until one day dream guy does find her. Tarek lost Lena seventeen years ago after she was accused of treason and marked tainted. He finally discovers her reborn on Earth into a life of suffering as punishment for her crime. However, someone else has already found her... and wants her dead. Willing to sacrifice everything, he fights to keep her safe so she can live the only life she's ever known-even if that life doesn't include him.

Dragon's Dust Alfred Wohlmuth 2017-01-15 Hidden in the forgotten tunnels beneath the castle of Thorilleia lies an ancient book written by a powerful wizard. Two young men set out to find the book, which is said to contain a mysterious secret. Their journey takes them across rugged mountains and through dense forests where they encounter dangerous creatures and strange cultures. When they reach Thorilleia, they find themselves thrust into a pivotal role in a war between great kingdoms. Loaded with action and unexpected twists, Dragon's Dust is not just a quest for riches and power; it's an adventure story where integrity, determination, and courage prevail in dire circumstances.

Options, Futures, and Other Derivatives John Hull 2009 Suitable for advanced undergraduate or graduate business, economics, and financial engineering courses in derivatives, options and futures, or risk management, this text bridges the gap between theory and practice.

Unspoken Memories Gabbie S Duran 2014-05-21 She awoke with no memory of who she was, but one clue will lead her to him... Abigail Adams had it all, she's a gorgeous supermodel, has a wealthy fiance, and a career on the rise. But that quickly changes when she wakes up in the hospital not remembering anything. The only memories she does have are not her own, but of a total stranger. When Abigail discovers that her fiance has been cheating on her, she leaves him and runs to the arms of the one man she is hoping will give her the answers she seeks. Matt Garcia is used to playing the field, keeping his heart guarded, but then Abigail Adams unexpectedly shows up at his door hoping he will be the answer she is looking for. Will he finally learn to take a break from his no strings attached lifestyle and show her that she doesn't need her past, but the future he is willing to offer her? With every unspoken memory she regains, will she learn to open up her heart to a total stranger, or will she keep it guarded like he does? New Adult

Contemporary Romance: Due to strong language and sexual content, not intended for readers under the age of 18.

Fundamentals of Investing Scott B. Smart 2016-01-29

Modern Auditing & Assurance Services Philomena Leung 2015 Modern Auditing & Assurance Services, 6th edition, is written for courses in auditing and assurance at undergraduate, postgraduate and professional levels. The practice of auditing is explained in the context of auditing theory, concepts and current practice, with appropriate reference to the Australian auditing standards and the respective international standards on auditing. Auditors play a vital role in the current economic environment, with increasing responsibility for ensuring market integrity. The development of auditing practice reflects how the accounting profession responds to the complex demands of information, competition, corporate failures and technology. Auditing continues to evolve in response to the changing business and regulatory landscape to maintain its relevance and importance. This book is a comprehensive guide to the development and practice of audits of a financial report, with an authoritative insight into the fundamental role of auditors, the influences on audits, and related issues.

The Inner Shrine Basil King 1909 "A melodramatic tale of a woman's life blighted by slander." Cf. Hanna, A. Mirror for the nation

My Name Is Cinnamon Salo Maa Neco 2015-02-09 Esref, my best friend and hero, was ordered by a magistrate to live in an Istanbul children's home. His angry mother and deviant step-father are trying to stop him from changing the world. Will he remain a lonely and troubled little boy? Will Istanbul devour him or nurture him? Another small question that's been nagging me for the past fifty or so years... was my best friend a serial murderer? Come with me on a magical flying carpet ride over, in and under Istanbul as I try to discover Esref's fate. You believe in fate, don't you? Come with me and explore your deeper and darker self. Can you taste the vanilla in the air? Can you feel cinnamon? Esref, Tarsin and I promise you a magical adventure for the good of the rest of your life. You do believe in magic, don't you? And serial murder?

eBook Fundamentals of Corporate Finance 4e David Hillier 2021-10-05 Now in its fourth edition, Fundamentals of Corporate Finance continues to use its engaging, accessible narrative to give students an introductory overview of the key concepts in modern corporate finance, and the strategies used by firms in this continually changing field. The author uses years of expertise to guide readers through a framework of corporate finance, providing readers with a solid foundation of knowledge. With integrated theories and real-world European examples, the new edition presents the fundamentals of corporate finance in a clear and captivating way. Key Features • New Sustainability in Finance boxes provide awareness on how sustainability and corporate finance are interconnected in every-day life. • Example boxes in every chapter provide real and hypothetical examples, illustrating theoretical concepts such as calculating returns, bond yields and equity. • Real World Insight boxes on prominent topics like mortgages, investing and price models illustrate how corporate finance theories and concepts have been applied to business and decisions. • Up-to-date content reflecting the latest developments in the field, including the growth of ethics and sustainability, the emergence of cryptocurrencies and financial technology, and the impact of Brexit on corporate finance practice. • Coverage of the Covid-19 pandemic and how this has and will impact the field of corporate finance in the future. • Material aligns with external syllabi from professional bodies including ACCA, CIMA and ICAEW.

Chasing Bliss Larry Brooks 2016-08-07 Marriage is hard. Living together in a committed, non-traditional relationship is just as hard, maybe more so. A less than completely satisfying level of happiness and fulfillment within a primary relationship is perhaps the most common human dysfunction in the modern world. So much so that we have come to accept something less than complete bliss in our marriages, partnerships and domestic arrangements as the normal state of things, an expectation born of human imperfection and the pressing need for constant compromise. We have redefined it as something less than the word bliss actually implies. Coming even mildly close to bliss is considered a rousing success, but even then, whatever sliver of unrest, anxiety and inconsistency remain can flare into a torrent of restlessness that could one day again render you single. In CHASING BLISS, Larry Brooks shows us a path toward bucking that trend through the channeling of our imperfection toward a perfectly functional awareness of how we might be contributing to the problem, while becoming coach and therapist when we're not. While repeatedly reminding the reader that some problems remain the province of professional counselors, CHASING BLISS holds up a mirror to the many ways time and apathy become toxic factors in reducing loving relationships to something less than how they began, with kindness, togetherness, sexual satisfaction and hope the price of growing apart while growing weary of each other. The book is divided into three sections: ten reasons why men might cheat... ten reasons why women might leave the nest for a better life... and an exploration of eight primary realms of relationship, the mastery of which becomes a tool chest of strategies and solutions that not only mitigate decline, but serve to refuel the chemistry and hope that once brought you together. This goes beyond the theoretical with specific actionable responses and alternatives to some of the most common challenges couples face, while clarifying tough, indisputable truths about the roles we play in our own domestic tragedies. Even if we feel - all the way to divorce court - that it was the other person's fault. This, promises the author, is the stuff your shrink will goad you into realizing for yourself, but without the weeks and months of therapy it could take to reach that point with clarity and purpose. It's all right here, in your face, unassailable and immediately useful in real life. In her Foreword to the book, Dr. Carrie Rubin says this: the beauty of this book is its power to be a tool for both relationship recovery and healthy relationship maintenance. For those in good shape, its advice will serve as a protective life vest, one that will keep you from sinking into troubled waters." Brooks knows from where he speaks, having been down the road to failure not once, but twice, and is now twenty years happily married to a woman that challenges him to be the best version of himself, with immovable consequences if he is not. "On paper we shouldn't work," he writes, "but we are living in a state I can only describe as bliss, if bliss is defined as inclusive of the trials and challenges that are inevitable and ready to rip you apart. Now we are stronger than the problems life throws our way, not because we are better or smarter than couples who don't make it, but because we are vulnerable to these truths and committed to the principles of interaction and loving partnership that are necessary to make it to the other side." These truths are the heart and soul of CHASING BLISS, a book for people who want to make love work, but fear they aren't up to it. With these principles, you just might become the couple that gets there through an understanding that bliss is not a destination or a finish line, but the road itself. Which, armed with empowered awareness and sensitivity, you can now actually pave with the good intentions that others blame.

Fundamentals of Financial Management Rafael Ortega de la Poza 2017-07-27 Entre las características de este libro, se pueden destacar dos de ellas. Primera, es un texto escrito en inglés y español, para que el lector pueda conocer las explicaciones teóricas y cuestiones prácticas en ambos idiomas. Segunda, el libro incluye numerosos conceptos financieros explicados de una forma sencilla, con ejemplos, para adquirir un sólido conocimiento de los fundamentos de las finanzas. Cada capítulo combina teoría y práctica, finalizando con una relación de ejercicios, cuyas soluciones se proponen, con la finalidad de comprobar el nivel de conocimiento de los diferentes conceptos explicados. Merece mencionarse que el último capítulo se dedica a analizar cuestiones relevantes de la crisis financiera de 2007. Fundamentos de dirección financiera es un libro muy adecuado para estudiantes y profesionales de las finanzas, o cualquier persona que pretenda adquirir un conocimiento sólido de aspectos básicos de las finanzas corporativas. Muchas personas han adoptado, o adoptarán, decisiones de inversión y financiación sobre algunos asuntos particulares, y en este sentido, el libro podría ayudar a elegir la decisión correcta.
