Concentric Circles of Concern Carolyn T. Ritzman 1999-09-01 In this stylish re-issue of W. Oscar Thompson's classic book on evangelism, Thompson shows Christians how to spread the love and good news of Christ by building and repairing personal relationships. Too often the only kind of evangelism encouraged is the preaching to strangers, anonymous crowds, and foreign countries. This book hits readers where they live, teaching them that the most effective way to witness is through a simple plan of meeting the needs of close family first, then friends, and then all others. Published post-humously, this book is a living testament of the brilliance of Oscar Thompson and his innovative method. It will be a perfect guide to lifestyle evangelism for church study groups, conferences, and the classroom.

The Glass Castle Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Elements of Causal Inference Jonas Peters 2017-11-29 A concise and self-contained introduction to causal inference, increasingly important in data science and machine learning. The mathematization of causality is a relatively recent development, and has become increasingly important in data science and machine learning. This book offers a self-contained and concise introduction to causal models and how to learn them from data. After explaining the need for causal models and discussing some of the principles underlying causal inference, the book teaches readers how to use causal models: how to compute intervention distributions, how to infer causal models from observational and interventional data, and how causal ideas could be exploited for classical machine learning problems. All of these topics are discussed first in terms of two variables and then in the more general multivariate case. The bivariate case turns out to be a particularly hard problem for causal learning because there are no conditional independences as used by classical methods for solving multivariate cases. The authors consider analyzing statistical asymmetries between cause and effect to be highly instructive, and they report on their decade of intensive research into this problem. The book is accessible to readers with a background in machine learning or statistics, and can be used in graduate courses or as a reference for researchers. The text includes code snippets that can be copied and pasted, exercises, and an appendix with a summary of the most important technical concepts.

The Art and Science of Negotiation Howard Raiffa 1985-03-15 Whether you are selling a house, closing a business deal, settling a divorce, arbitrating a labor dispute, or trying to hammer out an international treaty, Howard Raiffa's new book will measurably improve your negotiating skills. Although it is a sophisticated self-help book—directed to the lawyer, labor

arbitrator, business executive, college dean, diplomat—it is not cynical or Machiavellian: Raiffa emphasizes problems and situations where, with the kinds of skills he aims to develop, disputants can achieve results that are beneficial to all parties concerned. Indeed, he argues that the popular “zero-sum” way of thinking, according to which one side must lose if the other wins, often makes both sides worse off than they would be when bargaining for joint mutual gains. Using a vast array of specific cases and clear, helpful diagrams, Raiffa not only elucidates the step-by-step processes of negotiation but also translates this deeper understanding into practical guidelines for negotiators and “intervenors.” He examines the mechanics of negotiation in imaginative fashion, drawing on his extensive background in game theory and decision analysis, on his quarter-century of teaching nonspecialists in schools of business and public policy, on his personal experiences as director of an international institute dealing with East/West problems, and on the results of simulated negotiation exercises with hundreds of participants. There are popular books on the art of winning and scholarly books on the science of negotiation, but this is the first book to bridge the two currents. Shrewd, accessible, and engagingly written, it shows how a little analysis sprinkled with a touch of art can work to the advantage of any negotiator.

Holy Envy Barbara Brown Taylor 2019-03-30 The renowned Christian preacher and New York Times bestselling author of *An Altar in the World* recounts her moving discoveries of finding the sacred in unexpected places while teaching world religions to undergraduates in Baptist-saturated rural Georgia, revealing how God delights in confounding our expectations. Christians are taught that God is everywhere--a tenet that is central to Barbara Brown Taylor's life and faith. In *Holy Envy*, she continues her spiritual journey, contemplating the myriad ways she encountered God while exploring other faiths with her students in the classroom, and on field trips to diverse places of worship. Both she and her students ponder how the knowledge and insights they have gained raise important questions about belief, and explore how different practices relate to their own faith. Inspired by this intellectual and spiritual quest, Barbara turns once again to the Bible for guidance, to see what secrets lay buried there. Throughout *Holy Envy*, Barbara weaves together stories from her classroom with reflections on how her own spiritual journey has been challenged and renewed by connecting with people of other traditions--and by meeting God in them. At the heart of her odyssey is her trust that it is God who pushes her beyond her comfortable boundaries and calls us to "disown" our privatized versions of the divine--a change that ultimately deepens her relationship with both the world and with God, and ours.

**Finding Zoe** Brandi Rarus 2014-10-07 At just a few months old, Zoe was gradually losing her hearing. Her adoptive parents loved her—yet agonized—feeling they couldn't handle raising a Deaf child. Would Zoe go back into the welfare system and spend her childhood hoping to find parents willing to adopt her? Or, would she be the long-sought answer to a mother's prayers? Brandi Rarus was just 6 when spinal meningitis took away her hearing. Because she spoke well and easily adjusted to lip reading, she was mainstreamed in school and socialized primarily in the hearing community. Brandi was a popular, happy teen, but being fully part of every conversation was an ongoing struggle. She felt caught between two worlds—the Deaf and the hearing. In college, Brandi embraced Deaf Culture along with the joys of complete and effortless communication with her peers. Brandi went on to become Miss Deaf America in 1988 and served as a spokesperson for her community. It was during her tenure as Miss Deaf America that Brandi met Tim, a leader of the Gallaudet Uprising in support of selecting the university's first Deaf president. The two went on to marry and had three hearing boys—the first non-deaf children born in Tim's family in 125 years. Brandi was incredibly grateful to have her three wonderful sons, but couldn't shake the feeling something was missing. She didn't know that Zoe, a six-month-old Deaf baby girl caught in the foster care system, was desperately in need of a family unafraid of her different needs. Brandi found the answer to her prayers when fate brought her new adopted daughter into her life. Set against the backdrop of Deaf America, *Finding Zoe* is an uplifting story of hope, adoption, and everyday miracles.

**Fear and Loathing in Las Vegas** Hunter S. Thompson 2010-09-29 50th Anniversary Edition • With an introduction by Caity Weaver, acclaimed New York Times journalist This cult classic of gonzo journalism is the best chronicle of drug-soaked, addle-brained, rollicking good times ever committed to the printed page. It is also the tale of a long weekend road trip that has gone down in the annals of American pop culture as one of the strangest journeys ever undertaken. Also a major motion picture directed by Terry Gilliam, starring Johnny Depp and Benicio del Toro.

**Speak** Laurie Halse Anderson 2011-05-10 The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent

encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.

The Last Christian Generation Josh McDowell 2006 The research on the current generation of young people reveals an alarming fact: they have redefined what it means to be Christian. The majority of our church-ed young people do not believe Christ is the Son of God, do not believe the Holy Spirit is a real entity, and think 'doing good' earns them a place in heaven. And just as disturbing is the fact that their attitudes and behavior are virtually no different than those of non-Christians. In this defining message of his 40 years of ministry, Josh McDowell strikes at the heart of the problem and offers a clear solution. "We must bring this new generation face to face with who Christ really is," Josh explains. "They know the facts, but they don't know Him. They are believing distorted views of Christianity. This means we must first model Christlikeness to them and then continually lead them through a basic spiritual formation process that sets them on a solid foundation for building a life that is authentically Christian." Reintroduce the real and relevant Christ to your young people, lead them through the process of Christlikeness and you may very well ignite a spiritual revolution for an entire generation.
