The Etymologies of Isidore of Seville 2006-06-08 This work is a complete English translation of the Latin Etymologies of Isidore, Bishop of Seville (c.560–636). Isidore compiled the work between c.615 and the early 630s and it takes the form of an encyclopedia, arranged by subject matter. It contains much lore of the late classical world beginning with the Seven Liberal Arts, including Rhetoric, and touches on thousands of topics ranging from the names of God, the terminology of the Law, the technologies of fabrics, ships and agriculture to the names of cities and rivers, the theatrical arts, and cooking utensils. Isidore provides etymologies for most of the terms he explains, finding in the causes of words the underlying key to their meaning. This book offers a highly readable translation of the twenty books of the Etymologies, one of the most widely known texts for a thousand years from Isidore's time.

The Disperata, from Medieval Italy to Renaissance France Gabriella Scarlatta 2017-08-18 This study explores how the themes of the disperata genre - including hopelessness, death, suicide, doomed love, collective trauma, and damnations - are creatively adopted by several generations of poets in Italy and France, to establish a tradition that at times merges with, and at times subverts, Petrarchism.

I Lupi di Mercy Falls - 4. Sinner Maggie Stiefvater 2015-11-20 Cole St. Clair è tornato. Il carismatico cantante dei NARKOTICA, scomparso dalla scena dopo essere crollato sul palco in overdose, fa la sua ricomparsa a Los Angeles. È stato assoldato dalla regina delle webTv, Baby North, per un reality sulla produzione di un nuovo album, ma in realtà è a Los Angeles, perché lì vive Isabel, il suo amore di sempre. Cole si è disintossicato, anche se non ha smesso di iniettarsi la sostanza che lo fa diventare lupo. Trasformarsi gli evita di pensare, di dover affrontare la vita, i legami: è una droga anche quella, insomma. Isabel, che a Los Angeles studia per prepararsi alla facoltà di medicina e lavora in una boutique di tendenza, accoglie il ritorno di Cole con sentimenti contrastanti. È l'amore della sua vita, ma le ha spezzato il cuore. Ritrovarsi non è facile. Per Isabel dimenticare il passato e fidarsi di Cole è una sfida; per Cole la sfida è accettare i

propri sentimenti, senza droghe e senza trasformazioni.

Dante's Dream Gwenyth E. Hood 2021-07-05 Archetypal images, Carl Jung believed, when elaborated in tales and ceremonies, shape culture's imagination and behavior. Unfortunately, such cultural images can become stale and lose their power over the mind. But an artist or mystic can refresh and revive a culture's imagination by exploring his personal dream-images and connecting them to the past. Dante Alighieri presents his Divine Comedy as a dream-vision, carefully establishing the date at which it came to him (Good Friday, 1300), and maintaining the perspective of that time and place, throughout the work, upon unfolding history. Modern readers will therefore welcome a Jungian psychoanalytical approach, which can trace both instinctual and spiritual impulses in the human psyche. Some of Dante's innovations (admission of virtuous pagans to Limbo) and individualized scenes (meeting personal friends in the afterlife) more likely spring from unconscious inspiration than conscious didactic intent. For modern readers, a focus on Dante's personal dream-journey may offer the best way into his poem.

Forever Maggie Stiefvater 2011-08-04 In SHIVER, Grace and Sam found each other. In LINGER, they fought to be together. Now, in FOREVER, the stakes are even higher than before. Wolves are being hunted. Lives are being threatened. And love is harder and harder to hold on to as death comes closing in.

A Dictionary of Cebuano Visayan John Wolff 2016-01-26 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

The Summa Halensis Lydia Schumacher 2020-05-05 For generations, early Franciscan thought has been widely regarded as unoriginal: a mere attempt to systematize the longstanding intellectual tradition of Augustine in the face of the rising popularity of Aristotle. This volume brings together leading scholars in the field to undertake a major study of the sources and context of the so-called Summa Halensis (1236-45), which was collaboratively authored by the founding members of the Franciscan school at Paris, above all, Alexander of Hales, and John of La Rochelle, in an effort to lay down the Franciscan intellectual tradition or the first time. The contributions will highlight that this tradition, far from unoriginal, laid the groundwork for later Franciscan thought, which is often regarded as formative for modern thought. Furthermore, the volume shows the role this Summa played in the development of the burgeoning field of systematic theology, which has its origins in the young university of Paris. This is a crucial and groundbreaking study for those with interests in the history of western thought and theology specifically.

Strategies of Sanity and Survival Jussi Hanska 2002 Natural disasters have long been a neglected subject in the study of history. At most they have been casually mentioned as a background material for political or social history. During the 90s this state of affairs has slowly began to change. Nevertheless, there is still no general history of natural disasters available in any language. This book aims to cover one grey area in historical studies, that is, spiritual responses and survival strategies of medieval man in front of natural disasters. It asks what were his means to deal with natural disasters, phenomena he could not scientifically understand. How did he try to prevent them? What were his feelings and actions when the situation was on? How did he manage to carry on with his life afterwards? It is an unusual book in many respects. It is a specific study based on original and in most cases unedited sources, but it can also be read as a general

introduction. It crosses boundaries between different fields of learning and traditionally accepted time periods of history. Even if it is essentially a book on medieval man, it stretches far beyond the middle ages as conventionally understood. The final chapter traces the slow disappearance of the medieval mentality until the early nineteenth century.

Witchcraft, Demonology and Magic Marina Montesano 2020-05-20 Witchcraft and magic are topics of enduring interest for many reasons. The main one lies in their extraordinary interdisciplinarity: anthropologists, folklorists, historians, and more have contributed to build a body of work of extreme variety and consistence. Of course, this also means that the subjects themselves are not easy to assess. In a very general way, we can define witchcraft as a supernatural means to cause harm, death, or misfortune, while magic also belongs to the field of supernatural, or at least esoteric knowledge, but can be used to less dangerous effects (e.g., divination and astrology). In Western civilization, however, the witch hunt has set a very peculiar perspective in which diabolical witchcraft, the invention of the Sabbat, the persecution of many thousands of (mostly) female and (sometimes) male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft. This Special Issue of Religions dedicated to Witchcraft, Demonology, and Magic features nine articles that deal with four different regions of Europe (England, Germany, Hungary, and Italy) between Late Medieval and Modern times in different contexts and social milieus. Far from pretending to offer a complete picture, they focus on some topics that are central to the research in those fields and fit well in the current "cumulative concept of Western witchcraft" that rules out all mono-causality theories, investigating a plurality of causes.
