Presentation Zen Garr Reynolds 2009-04-15 FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. Presentation Zen challenges the conventional wisdom of making "slide presentations" in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Learning to Teach in the Primary School Teresa Cremin 2014-02-24 Flexible, effective and creative primary school teachers require subject knowledge, an understanding of their pupils and how they learn, a range of strategies for managing behaviour and organising environments for learning, and the ability to respond to dynamic classroom situations. This third edition of Learning to Teach in the Primary School is fully updated with reference to the new National Curriculum, and has been revised to provide even more practical advice and guidance to trainee primary teachers. Twenty-two new authors have been involved and connections are now made to Northern Irish, Welsh and Scottish policies. In addition, five new units have been included on: making the most of your placement play and exploration in learning behaviour management special educational needs phonics. With Masters-level reflective tasks and suggestions for research-based further reading, the book provides valuable support to trainee teachers engaged in learning through school-based experience and through reading, discussion and reflections as part of a teacher education course. It provides an accessible and engaging introduction to knowledge about teaching and learning that every student teacher needs to acquire in order to gain qualified teacher status (QTS). This comprehensive textbook is essential reading for all students training to be primary school teachers, including those on undergraduate teacher training courses (BEd, BA with QTS, BSc with QTS), postgraduate teacher training courses (PGCE, SCITT) and employment-based teacher training courses (Schools Direct, Teach First), plus those studying Education Studies. This textbook is supported by a free companion website with additional resources for instructors and students and can be accessed at [www.routledge.com/cw/Cremin](http://www.routledge.com/cw/Cremin).

Activities for Building Character and Social-Emotional Learning Grades 1–2 Katia S. Petersen 2012-04-01 Build attitudes of respect and caring, reduce problem behaviors, empower students to solve problems, and educate the whole child with this flexible, user-friendly activity guide. The Visual Turn and the Transformation of the Textbook James A. LaSpina 2014-04-04 Is the emerging digital multimedia culture of today transforming the textbook or forever displacing it? As new media of transmission enter the classroom, the traditional textbook is now caught up in a dialogue reshaping the textual boundaries of the book, and with it the traditional modes of cognition and learning, which are bound more to language than to visual form. Most of the important work in the past two decades in the field of curriculum has focused on the culture of the textbook. A rich literature has evolved around textbooks as the traditional object of instructional activity. This volume is an important contribution to this literature, which focuses on the actual making of a textbook. This design process serves as a metaphor that suggests new paradigms of learning and instruction, in which text content is but one component in a multidimensional information space. The Visual Turn is an exploration along the border of this new learning space transforming the traditional center of instruction in the classroom.
