The Adventure of the Blue Carbuncle Sir Arthur Conan Doyle 2016-08-31 Sherlock Holmes, the world's "only unofficial consulting detective", was first introduced to readers in *A Study in Scarlet* published by Sir Arthur Conan Doyle in 1887. It was with the publication of *The Adventures of Sherlock Holmes*, however, that the master sleuth grew tremendously in popularity, later to become one of the most beloved literary characters of all time. In this book series, the short stories comprising *The Adventures of Sherlock Holmes* have been amusingly illustrated using only Lego® brand minifigures and bricks. The illustrations recreate, through custom designed Lego models, the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in *The Strand Magazine* from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes, including his deerstalker cap and Inverness cape, details never mentioned in the writings of Conan Doyle. This uniquely illustrated collection, which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr. John H. Watson, including *A Sandal in Bohemia* and *The Red-Headed League*, is sure to delight Lego enthusiasts, as well as fans of the Great Detective, both old and new. In this story Sherlock Holmes and Dr. Watson investigate the curious discovery of a blue carbuncle in the crop of a Christmas goose abandoned by a man during a scuffle with some street ruffians. Holmes makes a series of deductions concerning the owner of a tattered old hat recovered along with the goose and thus sets out on the trail of the audacious thief who stole the precious stone five days previously.

The Curious Incident of the Dog in the Night-Time Mark Haddon 2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with

Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
