Live Life Aggressively!: What Self Help Gurus Should Be Telling You Mike R. Mahler 2011-08-01 Live Life Aggressively! What Self-Help Gurus Should Be Telling You is a much different take on the self-help genre. This book is a slap in the face! It will force the reader out of his or her comfort zone, and will move the reader to remember what he or she needs to know to move forward with purpose. It is about taking charge of your life, and striving for greatness, rather than accepting mediocrity, or a life of quiet desperation. This is what it means to live life aggressively! It means to live with strong purpose and resolve. This book covers areas that few have the courage to talk about, and that is the problem. It is the white elephant in the room that everyone wants to ignore. Instead of confronting this problem, most people waste time watching nonsense like reality television and texting all day long. Self-help books are so focused on making you feel good about yourself, that they fail to help you be honest with yourself. Without brutal honesty you will never move forward. Without a strong sense of purpose, and passion, you will never persevere through the inevitable plethora of hard times that are coming your way in life. People need to accept that they will suffer in order to lead a fulfilling life and that the suffering should be embraced rather than avoided. Embrace the suffering and avoid procrastination the true destroyer of hopes and dreams. This book's focus is to induce real/lasting change and that comes as result of being aggressively honest with yourself, using pressure to your advantage, running toward risk rather than away from it and having a clear vision of what you want and what you are willing to sacrifice to get it. Some of the unique topics covered in this book include: the importance of hormone optimization for well-being and achieving goals, why the real battles in life are within, the necessity of negative thinking, what really makes people happy, and why people should avoid being attached to the results of actions. 50% of profit from book sales will be going to two fantastic organizations. Lifequest Transitions a great organization that helps wounded warriors and the Nevada SCPA an excellent organization that helps abandoned animals find new homes.

The New Rules of Lifting For Life Lou Schuler 2012-04-26 A customizable-and realistic-fitness program specifically created for midlifers who want to lose weight, revitalize energy, and build habits for increased longevity. Today's exercising adults are caught in a bind: Those who take it seriously and work out aggressively end up with chronic aches and pains in midlife because they don't know how to adjust their programs as they get older. And those who take it easy end up with overfed, underdeveloped bodies that don't respond well when they decide to get serious about exercise. Lou Schuler and Alwyn Cosgrove, fitness experts and authors of The New Rules of Lifting series know all too well that these readers need a program of their own. That's because they are these readers. Schuler started working out in his early teens. After forty years, he realized he couldn't do the programs in his own books without lots of modifications. And Cosgrove, a former European champion in tae kwon do, is a two-time survivor of stage IV cancer who found himself with limited endurance and a body that stubbornly refused to add muscle or shed fat. So the authors set out to create a new template for exercise, one that delivers serious results but is also flexible enough to accommodate individual limitations. The New Rules of Lifting for Life offers a six-month plan that balances total-body strength, endurance, mobility, balance, coordination, and athleticism. The workouts are challenging and, in conjunction with the suggested diet modifications, will help readers change the way their bodies look, feel, and perform. And not just temporarily- The New Rules of Lifting for Life allows you to enjoy productive and pain-free workouts for many years to come.
