A Bird in the Hand Ann Cleeves 2013-08-15 A Bird in the Hand is the first novel featuring George and Molly Palmer-Jones by Ann Cleeves, author of the Shetland and Vera Stanhope crime series. In England's birdwatching paradise, a new breed has been sighted – a murderer . . . Young Tom French was found dead, lying in a marsh on the Norfolk coast, with his head bashed in and his binoculars still around his neck. One of the best birders in England, Tom had put the village of Rushy on the birdwatching map. Everyone liked him. Or did they? George Palmer-Jones, an elderly birdwatcher who decided quietly to look into the brutal crime, discovered mixed feelings aplenty. Still, he remained baffled by a deed that could have been motivated by thwarted love, pure envy, or something else altogether. But as he and his fellow "twitchers" flocked from Norfolk to Scotland to the Scilly Isles, in response to rumours of rare sightings, George – with help from his lovely wife, Molly – gradually discerned the true markings of a killer. All he had to do was prove it . . . before the murderer strikes again.

Of a Feather Scott Weidensaul 2008-09-15 Beyond Audubon: A quirky, "lively and illuminating" account of bird-watching's history, including "rivalries, controversies, [and] bad behavior" (The Washington Post Book World). From the moment Europeans arrived in North America, they were awestruck by a continent awash with birds—great flocks of wild pigeons, prairies teeming with grouse, woodlands alive with brilliantly colored songbirds. Of a Feather traces the colorful origins of American birding: the frontier ornithologists who collected eggs between border skirmishes; the society matrons who organized the first effective conservation movement; and the luminaries with checkered pasts, such as Alexander Wilson (a convicted blackmailer) and the endlessly self-mythologizing John James Audubon. Naturalist Scott Weidensaul also recounts the explosive growth of modern birding that began when an awkward schoolteacher named Roger Tory Peterson published A Field Guide to the Birds in 1934. Today, birding counts iPod-wearing teens and obsessive "listers" among its tens of

millions of participants, making what was once an eccentric hobby into something so completely mainstream it's now (almost) cool. This compulsively readable popular history will surely find a roost on every birder's shelf. "Weidensaul is a charming guide. . . . You don't have to be a birder to enjoy this look at one of today's fastest-growing (and increasingly competitive) hobbies." —The Arizona Republic

Birding Without Borders Noah Strycker 2017-10-10 The story of how the associate editor of *Birding* magazine set himself a lofty goal: to become the first person to see half the world's birds in one year. In 2015, for 365 days, with a backpack, binoculars, and a series of one-way tickets, Noah Strycker traveled across forty-one countries and all seven continents, eventually spotting 6,042 species—by far the biggest birding year on record. This is no travelogue or glorified checklist. Noah ventures deep into a world of chronic sleep deprivation, airline snafus, breakdowns, mudslides, floods, war zones, ecologic devastation, conservation triumphs, common and iconic species, and scores of passionate bird lovers around the globe. By pursuing the freest creatures on the planet, he gains a unique perspective on the world they share with us—and offers a hopeful message that even as many birds face an uncertain future, more people than ever are working to protect them. "Birding Without Borders is light-hearted and filled with stories of exotic birds, risky adventures, and colorful birding companions." —New York Times Book Review "Highly recommended for anyone interested in travel, natural history, and adventure." —Library Journal "Even readers who wouldn't know a marvellous spatuletail from a southern ground hornbill will be awed by Strycker's achievement and appreciate the passion with which he pursues his interest." —Publishers Weekly

Bill Oddie's Little Black Bird Book Bill Oddie 2014-12-08 'Bird-watchers are tense, competitive, selfish, shifty, dishonest, distrusting, boorish, pedantic, unsentimental, arrogant and – above all – envious'. So says Bill Oddie, and he should know! It's a tough environment out there on marsh and moorland, and this scurrilous little classic is a must for all devoted birders and twitchers (and as Bill relates, there is a mighty difference!). With years of hard-earned experience, Bill dares to say all the things that other b's and t's will recognize as true but which they have never dared to own up or admit to, even to themselves. Whether discussing the birds he's seen, the birds that got away, equipment, apparel, sightings, cock-ups, places to visit or people to avoid, Bill's enthusiasm is infectious, and his knowledge unsurpassed. This little black book is one item that no serious birdwatcher can afford to leave out of the rucksack, and it will prove an essential companion when trudging the estuaries and riverbanks, in torrential rain and gusty gale in search of that elusive rare beauty.

Birding at the Bridge Heather Wolf 2016-06-14 One woman shares her quest to document a stunning variety of birds found in Brooklyn Bridge Park in this wonderful guide for birders everywhere. When avid birder Heather Wolf moved from tropical Florida to a nearby apartment, she wondered how many species she might see there, and soon came to a surprising realization: Not only is the park filled with an astonishing variety of birds, but the challenges that come with urban birding make them even more fun—and rewarding—to find. Camera in hand, Heather has captured scores of memorable scenes—a European starling pokes its head out of a hole in a snack shop, a marsh wren straddles two branches, common grackle nestlings clamor for food above the basketball courts—in more than 150 stunning photographs that will entrance birders and bird lovers, wherever their local patch may be. page, foraging, nesting, and soaring in the slice of the city where they've made themselves at home. Discover the thrilling adventure of birding in the great outdoors—in the heart of Brooklyn. The Bedside Book of Birds Graeme Gibson 2021-03-30 In this stunning

assemblage of words and images, novelist and avid birdwatcher Graeme Gibson has crafted an extraordinary tribute to the venerable relationship between humans and birds. Birds have ever been the symbols of our highest aspirations. As divine messengers, symbols of our yearning for the heavens, or avatars of glorious song and colour, they have stirred our imaginations from the moment we first looked into the sky. Whether as the Christian dove, or Quetzalcoatl--the Aztec Plumed Serpent--or in Plato's vision of the human soul growing wings and feathers, religion and philosophy have looked to birds as representatives of our better selves--that part of us not bound to the earth. With the passion of a birdwatcher and hoarder of words, Gibson has spent fifteen years collecting the literary and artistic forms our affinity for birds has taken over the centuries. Birds appear again and again in mythology and folk tales, and in literature by writers as diverse as Ovid, Thomas Hardy, Kafka, Thoreau and T.S. Eliot. They've been omens, allegories, disguises and guides; they've been worshipped, eaten, feared and loved. Nor does Gibson forget the fascination they hold for science, as the Galapagos finches did for Darwin. Birds figure charmingly and tellingly in the work of such nature writers as Gilbert White, Peter Matthiessen, Farley Mowat and Barry Lopez. Gorgeously illustrated, woven from centuries of human response to the delights of the feathered tribes, *The Bedside Book of Birds* is for anyone who is aware of birds, and for everyone who is intrigued by the artistic forms that humanity has created to represent its soul. From *The Bedside Book of Birds* ~ Stevenson remembered the story of a monk who had been distracted from his copy-work by the song of a bird. He went into the garden to listen more closely, and when he returned, after what he thought were only a few minutes, he discovered that a century had gone by, that his fellow monks were dead and his ink had turned to dust. The song of the bird had given him a taste of Paradise, where an instant is as a hundred years of earthly time. Was the same true of time in hell, Stevenson asked himself. Alberto Manguel

Lost Among the Birds Neil Hayward 2016-06-07 Early in 2013 Neil Hayward was at a crossroads. He didn't want to open a bakery or whatever else executives do when they quit a lucrative but unfulfilling job. He didn't want to think about his failed relationship with "the one" or his potential for ruining a new relationship with "the next one." And he almost certainly didn't want to think about turning forty. And so instead he went

birding. Birding was a lifelong passion. It was only among the birds that Neil found a calm that had eluded him in the confusing world of humans. But this time he also found competition. His growing list of species reluctantly catapulted him into a Big Year--a race to find the most birds in one year. His peregrinations across twenty-eight states and six provinces in search of exotic species took him to a hoarfrost-covered forest in Massachusetts to find a Fieldfare; to Lake Havasu, Arizona, to see a rare Nutting's Flycatcher; and to Vancouver for the Red-flanked Bluetail. Neil's Big Year was as unplanned as it was accidental: It was the perfect distraction to life. Neil shocked the birding world by finding 749 species of bird and breaking the long-standing Big Year record. He also surprised himself: During his time among the hummingbirds, tanagers, and boobies, he found a renewed sense of confidence and hope about the world and his place in it.

In Search of the Painted Bunting Eldon N. Spady 2013-06-29 Join Eldon Spady and his family on seven birding trips around the United States and in Costa Rica. This is a humorous look at birding and birders as well as a family at play. Though some of their trips involved about as much luxury as any true birder can expect, some, in Spady's words, involved "...places where we were afraid to use the washcloths, where you couldn't walk on the floor of the dining room without your shoes sticking, where the sheets were adorned with cigarette burns and strange-looking stains, and where the only view was a swimming pool covered with bugs and algae. "We often had to drive our own tour vehicle, schlep our own luggage, and eat things that looked like cheese-covered armadillos. One restaurant bathroom sported a sign that read Don't Wash Your Hands, They're Already Cleaner Than Anything Here!" In spite of the challenges, at the heart of In Search of the Painted Bunting lies the revelation that family birding trips can be great fun (if you don't embarrass easily), rewarding, and punctuated with more than enough laughter to last till the next time.

The Birdman's Wife Melissa Ashley 2019-01-29 Inspired by letters from Elizabeth found tucked inside her famous husband's research, The Birdman's Wife takes the form of an intimate memoir of a woman whose talent and adventurous spirit led her from the glittering salons of London to the wilds of Van Diemen's land and New South Wales. Artist Elizabeth Gould spent her life capturing the sublime beauty of birds the world had never seen before. But her legacy was eclipsed by the fame of her husband, John Gould. This book at last gives voice to a passionate and adventurous spirit who was so much more than the woman behind the man. Elizabeth was a woman ahead of her time, juggling the demands of

her artistic life with her roles as wife, lover, helpmate, and mother to an ever-growing brood of children. In a golden age of discovery, her artistry breathed wondrous life into countless exotic new species, including Charles Darwin's Galapagos finches. In this book, a naïve young girl who falls in love with an ambitious genius comes into her own as a woman, an artist and a bold adventurer who defies convention by embarking on a trailblazing expedition to the colonies to discover Australia's curious birdlife. This is an indelible portrait of an extraordinary woman overlooked by history until now.
