Ultimate Weatherpedia Stephanie Warren Drimmer 2019-10-29 What's the weather? Wake up to this ultimate reference, teeming with fascinating facts, amazing features, the latest science, and tons of close-up images of the wildest weather on the planet. Did you know that a bolt of lightning can crack through the air at up to 136,000 miles per hour and reach temperatures hotter than the surface of the sun? Or that if all the ice in the Antarctic melted, the oceans would rise by about 220 feet? Welcome to the amazing world of weather. From how weather happens to the most extreme weather in the world, it's all covered in this easy-to-use reference featuring all the major types of weather and what kinds of weather happen in particular places, from the desert to the tropics to the poles. The main content is highlighted with fun facts, Did You Know? details, and colorful photos and graphics. Thematic spreads cover topics such as climate change, weather survival stories, animal adaptations to weather, and much more. Fans of other National Geographic Kids Ultimate "pedias" in the same series--Dinopedia, Bugopedia, Reptileopedia, Oceanpedia, and Predatorpedia--will want to find a place for Ultimate Weatherpedia on their bookshelves.

Snake Chris Mattison 2016-03 A comprehensive, best-selling guide to more than 3,000 snake species for fans of snakes, snake owners, and students -- now in an updated second edition produced in association with the Smithsonian Institution. Get to know more than 3,000 snakes from around the world, from the familiar, massive Green Anaconda to the deadly Tropical Rattlesnake, the Reticulated Python, Red-Spitting Cobra, Puff Adder, Gaboon Viper, and more. Learn about the lesser-known dainty Leopard Snake, whose bright markings trick predators -- and often humans -- into thinking it is a deadly viper. Snake uses gorgeous, full-color photographs of 60 snakes to showcase what makes these reptiles so extraordinary, and includes more than 450 illustrations and detailed close-up photographs that show the snakes in action. Herpetology expert and wildlife photographer Chris Mattison accompanies each profile with fascinating snake facts and trivia on the snake's physical and behavioral characteristics, information about habitats, reproductive behavior, feeding, defense, and more. Plus, the updated, easy-to-reference Snake Directory lists every snake species within the 18 snake families, including little-known and rarely sighted species. Snake is a beautiful and comprehensive guide to some of nature's more compelling animals.

Sneed B. Collard III's Most Fun Book Ever About Lizards Sneed B. Collard III 2012-02-01 Lizards are cool. Literally. They are ectotherms, which means they can't make their own heat. That's why you see many types of lizards basking in the sun, seemingly doing nothing at all. That's the life. But make no mistake, lizards have very busy lives?looking for food and avoiding being food. Popular science writer Sneed B. Collard III gets down and dirty with all kinds of lizards?from your average "Joe Lizard," the western fence lizard, to the impressively large Komodo dragon. In a kid-friendly narrative, Sneed explores many different kinds of lizards, their habitats, defense systems, hunting techniques, and mating rituals. He reveals the exciting life of a lizard?from rappelling from the tops of trees to the forest floor, to dropping off a tail to get away from a predator.

Everything Reptile Cherie Winner 2004 Presents numerous facts about reptiles, using a series of questions and answers.
